

SHARP

Be Original.

MX-B455W
MX-B355W

Digital Multifunction System

Much More Than Meets the Eye

simply better **business**

Less bulk, less lag, less hassle —

Simply Better **Experience**

Compact, streamlined, and packed with document functionality, this MFP fits seamlessly into any business setting.

for Simply Better **Business**

Executive rooms

Process

With features normally found on advanced A3 machines, this MFP puts the power of productivity at your fingertips.

Enterprises

Admin

Setting up a secure environment is easy with this MFP, which runs on the same system used by Sharp's A3 machines.

COPY/PRINT

Super-Efficient Output and Short Warm-Up Time

This MFP delivers a fast output of 45/35 ppm^{*1}. The first copy comes out in just 3.7/5.3 seconds, saving you valuable time when performing multiple short-run jobs. The MFP's warm-up time of 20 seconds^{*2} brings added efficiency and reduces overall energy consumption.

^{*1}: A4 (8 1/2" x 11"), short-edge feeding

^{*2}: When starting the MFP via the power button.

30 sec. when starting via the main power switch.

Office Direct Printing

Print common Microsoft® Office files without using a PC. With this MFP, you can print a Word, Excel®, or PowerPoint® file directly from a mobile device, cloud service, USB drive, or file server.

Note: The actual printout may look different from what is displayed on the computer screen. This function is enabled via Qualcomm® DirectOffice™ technology.

Print Release

The Print Release function lets you send documents to the main MFP, which acts as a server and stores them for printing out from any other compatible MFP on the network. This function comes in handy when the main MFP is in use or under maintenance, letting you finish your job with minimal waiting.

Note: Contact a Sharp customer representative for details on the recommended maximum number of connectable MFPs.

Printer Driver with Easy Setup

The printer driver setup window features a simple design that includes larger buttons and drop-down menus, making it easier than ever to use printer functions.

Space-Efficient Inner Finisher

With the help of this finisher option, the MFP can handle document sorting and stapling jobs with ease.

Large Paper Capacity

This MFP comes standard with a 500-sheet tray and 50-sheet multi bypass tray. An optional 600-sheet paper feed unit is available for a total paper capacity of 2,350 sheets.

Accommodates Various Paper Sizes

The main unit paper tray and multi bypass tray accommodate a wide variety of paper sizes, including A6. The optional paper feed unit and multi bypass tray handle legal size paper and paper up to 220 g/m² thick.

Copying Originals with Highlighted Lines

Highlighter markings, such as lines, check marks, and circles on a document are usually hard to reproduce. But with these MFPs, they turn out clearly visible in copies.

PCL 6 and True Adobe® PostScript® 3™

For enhanced font compatibility and improved graphics handling, this MFP supports both PCL 6 and Adobe PostScript 3.

SCAN

Multiple Scan Destinations

Scanned documents can be distributed in a number of ways. A standard-equipped compact PDF function ensures that PDF files are sent and received smoothly. When you're scanning large-volume documents, the MFP saves the data on its hard disk and generates a URL for accessing and downloading that data. You can then e-mail recipients this URL, thereby reducing the load on the mail server.

Convert Documents via OCR

OCR capability on this MFP lets you convert a scanned document into a searchable PDF file or into an editable Office Open XML (docx, xlsx, pptx) file. This means you can do speedy text searches and easily copy and paste text data into other applications.

Business Card Management

Creating and managing a database of business cards is easy with this MFP. The MFP features a dedicated feeder for scanning batches of up to 25 business cards. It reads contact details on each card via OCR* and then exports those details to a third-party contact management system of your choice.

* Scans one side only, even when using document feeder.

Card Shot (Multi) Function

Scan up to four ID or credit cards at once, turn them over, and scan the reverse sides. For each card, a separate file is created that includes the front and reverse sides.

Quick Scanning

On the MX-B455W, a 100-sheet DSPF (duplex single pass feeder) scans at 110 opm*¹ (two-sided) or 70 opm*¹ (one-sided). On the MX-B355W, a 50-sheet RSPF (reversing single pass feeder) scans at 40 opm*¹ (one-sided). Both the DSPF and RSPF*² include a business card feeder that feeds in batches of up to 25 cards. Such speedy functionality means that even large jobs can be finished quickly and efficiently.

*1: Originals per minute; when feeding A4 (8 1/2" x 11") sheets

*2: RSPF scans only one side of business cards

Multicrop Function

The Multicrop function automatically creates separate files for multiple different-sized documents—such as receipts and bills—that are scanned simultaneously.

Image Crop Function

This function lets you scan multiple photos all at once and save each one as a separate file. It can also crop photos on documents such as magazine pages and save them as individual files.

Easy, High-Quality Scanning

Through an advanced three-step process, **Auto Colour Mode** provides fully automated scanning in both colour and B/W—with a simple press of the Start button. Here's how it works: **Auto Colour Selection** automatically determines whether a page is colour or B/W. **Auto Original Type Selection** then analyses page contents to distinguish between different components (such as photos and text) and selects the appropriate mode. Finally, **Background Suppression** automatically removes unnecessary background colour.

SHARING

Link to Cloud Services*

This MFP doesn't just connect to your local server. It also connects with cloud services directly from its control panel. You can upload scanned data to Google Drive, OneDrive for Business, SharePoint Online, or Box—or print directly from any of them. Cloud services help to make setting up and managing a server in your company more efficient. Once you log in to the MFP, its single sign-on feature allows you to quickly access multiple software services without having to sign in to each one separately.

* Contact a Sharp customer representative for details.

Link with Mail Servers

Scanned data can be conveniently sent via your Gmail™ or Microsoft Exchange/Online* account. Scanned data that you send can be stored on the mail server with other sent items.

* Exchange Server 2010/2013/2016, Exchange Online

Sharp OSA (Open Systems Architecture)

Sharp OSA technology allows you to interact with intra-company systems and network applications right from the LCD control panel, offering a new realm of control and convenience. And since Sharp OSA utilises industry-standard network protocols, the MFP can easily integrate with third-party document management systems, enterprise resource planning software, workflow applications, and more. The latest version of Sharp OSA can reach beyond the firewall, enabling extensive system construction as well as services delivered over the Internet such as cloud services. In this way, Sharp OSA provides a foundation for cost reductions and information sharing across the entire company organisation—effectively enhancing total business efficiency.

Two-Way Sharing with Mobile Devices

• **Sharpdesk Mobile***¹ is a mobile print/scan app that connects the MFP to mobile devices. You can easily link your mobile device to the MFP by simply holding it over the MFP's NFC card reader*² or by scanning the MFP's QR Code®.

*1: For details, see the Sharpdesk Mobile support website: https://global.sharp/products/copier/docu_solutions/mobile/sharpdesk_mobile/

*2: The NFC interface is for Android™ devices. Requires commercially available NFC card reader. Contact a Sharp customer representative for details.

• **AirPrint** and **Sharp Print Service Plugin** are supported.

Wireless Connections

The MFP offers ultra-handry wireless access via two easy modes, enabling convenient access to the MFP even from places where it's difficult to connect a LAN cable.

• **Infrastructure mode** wirelessly connects the MFP to a wireless LAN router connected to the intranet.

• **Access Point mode** wirelessly connects a LAN-wired MFP to mobile PCs/devices without going through a wireless LAN router.

Note: External networks cannot be accessed via the MFP. Up to five mobile devices can be wirelessly connected to the MFP at the same time.

OPERATION

Easy User Interface

A user-friendly touchscreen interface incorporating an Easy UI mode makes it easy and intuitive to operate the MFP. In this mode, simple icons are displayed on the 7.0-inch colour LCD touchscreen. The Advanced Preview function, meanwhile, lets you check document finishes and page layout in advance, edit pages easily, and preview documents in various modes.

Free-Tilting Control Panel

The control panel can be tilted freely at various angles for easy viewing and easy operation, even from a wheelchair.

Direct Printing/Scanning with USB Drives

Insert a USB drive into the MFP and a command screen will automatically pop up on the LCD. Right away you can print files from the USB drive or scan documents directly to the USB drive.

Device Management

Sharp Remote Device Manager* (SRDM) gives administrators centralised control of their networked MFPs. This software covers system setup, security settings, troubleshooting, and more.

* Contact a Sharp customer representative for availability and other details.

LED Status Lamps

Next to the control panel are two LED lamps: one red, one green. These light up to notify you—even from a distance—of the status of the machine.

SECURITY

Network Security and Access Control

- **S/MIME** provides secure e-mail communications*
* Only when e-mailing scanned data.
- **SSL** (secure sockets layer) and IPsec data encryption technologies ensure secure network communications
- **User authentication** prevents unauthorised MFP use by requiring passwords
- **Active Directory**® enables integrated management of user credentials, thereby providing a highly secure and efficient environment for system administrators

Document and Data Protection

- **Document Control*** prevents unauthorised use of confidential documents by embedding copy prevention data in them
* Requires optional MX-FR59U. May not work with certain types of paper, documents (such as those with a lot of photos), or MFP settings.
- **Hidden Pattern Copy/Print** embeds a watermark onto a document
- Job data is automatically **encrypted*** before being saved to the MFP's internal storage
* Contact a Sharp customer representative for details on activating this function.
- Retained data can be **erased** when it's time to replace the MFP, preventing the leakage of confidential information

SYSTEM CONFIGURATION

Certain optional equipment may not be available in some areas.

SPECIFICATIONS

General		Document Filing	
Type	Desktop	Document filing capacity*12	Main and custom folders: 20,000 pages or 3,000 files Quick file folder: 10,000 pages or 1,000 files
Engine speed	A4 (8 1/2" x 11")*1: Max. 45/35 ppm	Stored jobs	Copy, print, scan, fax
Control panel display	7-inch colour LCD touchscreen	Storage folders	Quick file folder, main folder, custom folder (max. 1,000 folders)
Paper size	Max. A4 (8 1/2" x 14"), min. A6 (5 1/2" x 8 1/2")	Printer	
Paper capacity	Standard: 550 sheets (500-sheet tray and 50-sheet multi bypass tray) Maximum: 2,350 sheets (550 sheets & optional 600-sheet tray x 3)	Resolution	600 x 600 dpi, 9,600 (equivalent) x 600 dpi
Paper weight	Tray 1: 60 g/m ² to 105 g/m ² (16 lbs bond to 28 lbs bond) Trays 2-4 (MX-CS14 N): 55 g/m ² to 220 g/m ² (13 lbs bond to 80 lbs cover) Multi bypass tray: 55 g/m ² to 220 g/m ² (13 lbs bond to 80 lbs cover)	Interface	USB 2.0 (host, high-speed), 10Base-T/100Base-TX/1000Base-T, wireless LAN (IEEE 802.11 n/g/b)
Warm-up time*2	20 sec.*3	Supported OS	Windows Server® 2008, Windows Server® 2008 R2, Windows Server® 2012, Windows Server® 2012 R2, Windows Server® 2016, Windows Server® 2019, Windows® 7, Windows® 8.1, Windows® 10, Mac OS 10.6, 10.7, 10.8, 10.9, 10.10, 10.11, 10.12, 10.13, 10.14, 10.15
Memory	5 GB (copy/print shared) 500 GB HDD*4	Network protocols	TCP/IP
Power requirements	Rated local AC voltage ±10%, 50/60 Hz	Printing protocols	LPR, Raw TCP (port 9100), POP3 (e-mail printing), HTTP, FTP for downloading print files, IPP, SMB, WSD
Power consumption	Max. 1.84 kW (220 V to 240 V)	PDL	PCL 6 emulation, Adobe® PostScript® 3™
Dimensions (W x D x H)*5	MX-B455W: 492 x 517*6 x 638 mm (19 3/8" x 20 23/64" x 25 1/8") MX-B355W: 492 x 517*6 x 588 mm (19 3/8" x 20 23/64" x 23 5/32")	Available fonts	80 fonts for PCL, 139 fonts for Adobe PostScript 3
Weight (approx.)	MX-B455W: 33 kg (72.8 lbs) MX-B355W: 31 kg (68.4 lbs)	Facsimile	
Copier		Compression method	MH/MR/MMR/JBIG
Original paper size	Max. A4 (8 1/2" x 14")	Communication protocol	Super G3/G3
First copy time*7	MX-B455W: 3.7 sec. MX-B355W: 5.3 sec.	Transmission time	Less than 3 seconds*13
Continuous copy	Max. 9,999 copies	Modem speed	33,600 bps to 2,400 bps with automatic fallback
Resolution	Scan: 600 x 600 dpi, 600 x 400 dpi Print: 600 x 600 dpi, 9,600 (equivalent) x 600 dpi (depending on copy mode)	Transmission resolution	From Standard (203.2 x 97.8 dpi) to Ultra Fine (406.4 x 391 dpi)
Gradation	Equivalent to 256 levels	Recording size	A4 to A5 (8 1/2" x 14" to 5 1/2" x 8 1/2")
Zoom range	25% to 400% (25% to 200% using DSPF/RSPF) in 1% increments	Memory	1 GB (built-in)
Preset copy ratios	Metric: 10 ratios (5R/5E), inch: 7 ratios (4R/3E)	Greyscale levels	Equivalent to 256 levels

*1: Short-edge feeding.
*2: In a standard measurement environment. May vary depending on operating conditions and environment.
*3: When starting the MFP via the power button. 30 sec. when starting via the main power switch.
*4: HDD capacity depends on procurement and sourcing status.
*5: Including adjusters and protuberances.
*6: 533 mm (20 5/8") when the control panel is tilted at the flattest horizontal angle.
*7: Short-edge feeding of A4 (8 1/2" x 11") sheets from 1st paper tray, using document glass, MFP in fully ready condition. May vary depending on operating conditions and environment.
*8: Scan speed will vary depending on the type of document and the scan settings. MX-B455W: Based on Sharp's A4 standard chart, using document feeder, short-edge feeding, and factory default settings. MX-B355W: Based on Sharp's A4 standard chart, using document feeder, short-edge feeding, one-sided scanning, and factory default settings.
*9: Resolution will vary depending on the size of the scanned area.
*10: Colour/greyscale only.
*11: Requires Network Scanner Tool Lite.
*12: Storage capacity will vary depending on the type of document and the scan settings.
*13: Based on Sharp's standard chart with approx. 700 characters (A4 or 8 1/2" x 11" short-edge feeding) at standard resolution in Super G3 mode, 33,600 bps, JBIG compression.

MX-B455W shown with optional equipment.
